# About Taruveda

Premium Botanical Extracts. Rooted in Satara. Crafted for the World.

Taruveda Xtracts LLP is a premium botanical extraction company specializing in export-grade essential oils, oleoresins, and herbal extracts, produced using advanced Supercritical CO<sub>2</sub> extraction technology.

Strategically located in Satara, Maharashtra—one of India's most renowned ginger-growing regions—Taruveda works closely with local farming communities to strengthen value at the source. Through fair pricing, assured procurement, sustainable cultivation practices, and technical guidance, we actively empower ginger farmers, enhance crop quality, and support long-term agricultural sustainability.

This strong agricultural foundation is refined through modern, solvent-free extraction to deliver clean, high-potency, residue-free extracts that meet the expectations of global markets.

Our internationally compliant facility ensures complete traceability, consistent batch quality, and uncompromising purity, positioning Taruveda as a trusted partner for flavour & fragrance houses, FMCG brands, wellness and nutraceutical companies, ayurvedic manufacturers, and international buyers.

Taruveda Xtracts LLP — From Satara's Farms to Global Formulations.  
Pure. Potent. Authentic.

# Our Products

State-of-the-art, solvent-free CO<sub>2</sub> extraction, we deliver pure, potent, and residue-free extracts that meet the highest international standards.

## Ginger Oil

Warm, spicy aromatic oil known for digestive support, anti-inflammatory benefits, and flavour enhancement.

## Turmeric Oil

Golden essential oil rich in curcuminoids, offering strong antioxidant and anti-inflammatory benefits.

## Cinnamon Oil

Rich, sweet-spicy oil valued for its antimicrobial properties and intense fragrance profile.

## Peppermint Oil

Cooling, refreshing oil known for digestive relief, respiratory support, and energising aroma.

## Cardamon Oil

Premium aromatic oil with fresh, sweet notes—widely used in flavours, fragrances, and wellness blends.

## Coffee Oil

Intense, aromatic lipid extracted from dark beans, prized for its deep "fresh-brewed" scent and rich flavor enhancement.

## Clove Oil

Potent spicy oil with powerful antimicrobial properties, commonly used in dental care and aromatherapy.

## Spearmint Oil

Mild, sweet mint oil ideal for oral care, confectionery, cosmetics, and soothing applications.

## Oleoresins

- Ginger Oleoresin
- Turmeric Oleoresin
- Cardamom Oleoresin
- Clove Oleoresin
- Coffee Oleoresin
- Cinnamon oleoresin
